Draining mines that likely impact water quality with no active water treatment. (Division of Reclamation Mining and Safety) No. Sites = 148

Draining mines under investigation or being remediated. (Division of Reclamation Mining and Safety) No. Sites = 35

Project examples include removing mine tailings, removing mine waste piles and stream restoration. (Water Quality Control Division) No. Projects = 63

Nonpoint source mine reclamation projects. These projects do not provide active water treatment.

Legend

- Mining related area with active treatment (Division of Reclamation Mining and Safety) Area = 148
- Mining-related area with no treatment (Division of Reclamation Mining and Safety) Area = 118
- REMEDIATION (Division of Reclamation Mining and Safety) Area = 136
- Nonpoint source mine reclamation (Water Quality Control Division) Project = 63
- Mining-related area with no active treatment (Division of Reclamation Mining and Safety) Area = 118
- Mining-related area with no active treatment (Division of Reclamation Mining and Safety) Area = 118
