Waiver Simplification Services and Supports Worksheet

Waiver Simplification is focused on changing the design and delivery of home and community-based services (HCBS) to support person-centered access to long-term services and supports (LTSS) based on choice and individual needs and not solely on diagnosis or disability. Waiver simplification will maximize choice and flexibility to the extent possible so that people receive the services they need when and where they need them in the home or the community.

Considerations for waiver services:

- How does the service support the person’s life choices?
- How does the service support caregivers and providers?
- What activities are included or covered through the service (ADL and IADL assistance, health and wellness, plan development, education, coaching, problem-solving, intervention to de-escalate crises, access to community resources, etc.)
- What activities/benefits are excluded?
- Will the service or support be needed by a specific population or multiple populations?
- Where is the service available (home, community, onsite at provider agency, offsite, etc.)?
- How the service is delivered (face-to-face, telephone, video conference, group, family, etc.)
- Who can provide the service, i.e., provider and staff qualifications?
- What are the limits on the amount, scope or duration of the service?

**Behavioral Supports**

Supports that assist the participant with behaviors that limit and impair everyday functioning. Behavioral supports assist the participant in developing, maintaining, improving, or restoring, to the maximum extent possible, the ability to participate meaningfully in the community and meet personal goals.

**Services**

- **Behavioral Consultation:**
  Development and implementation of behavioral support plans and behavioral interventions necessary for the individual to acquire or maintain appropriate adaptive behaviors, interactions with others and behavioral self-management. Intervention modalities shall relate to an identified behavioral need of the individual and are monitored for outcomes and integration into all services and supports.

- **Behavioral Plan Assessment:**
  Observations, environmental assessments, interviews of direct staff, functional behavioral analysis and assessment, evaluations and completion of a written assessment document.

- **Individual/Group Counseling:**
  Psychotherapeutic or psych educational intervention for the individual to acquire or maintain appropriate adaptive behaviors, interactions with others and behavioral self-management, to positively impact the individual's behavior or functioning.

- **Behavioral Line Services:**
  Implementation of the behavioral support plan, under the supervision and oversight of a Behavioral Consultant for acute, short term intervention to

address an identified behavior of an individual that puts the individual's health and safety and/or the safety of others at risk.

**Transportation**

**Non-Medical Transportation:**
- Service offered in order to enable waiver participants to gain access to waiver and other community services, activities and resources.
- Transportation services may include access to public transportation, training on the use of public transportation, the direct provision of transportation, or a combination of services based on the individual’s informed choice.

**Vehicle Modification:**
- Adaptations or alterations to an automobile that is the person’s primary means of transportation that are necessary in order to accommodate the special needs of the person and enable the person to integrate more fully into the community and to ensure the health, welfare and safety of the participant. The following are specifically excluded:
  - Adaptations or improvements to the vehicle that are of general utility, and are not of direct medical or remedial benefit to the individual;
  - Purchase or lease of a vehicle; and
  - Regularly scheduled upkeep and maintenance of a vehicle except upkeep and maintenance of the modifications.

**Community and Personal Engagement**

Support to develop and implement goals and aspirations for employment, volunteer work, civic involvement, relationships, self-advocacy, training, and education. Services should be based on the individual’s choice, including peer mentorship, social media and other online opportunities.
