This report provides the state legislative history for all states, including the 14 states and D.C. that now fully operate state-run Exchanges or Marketplaces, the three states with state-run authority while using healthcare.gov, three that run the small-business (SHOP) exchange only, and the state executive and legislative decisions in the 34 states that have State-Federal Partnerships (seven states), transition plans or Federally-Facilitated Marketplaces, including reliance on healthcare.gov. The federal Affordable Care Act (ACA) permits any state to change its structure and administration, by requesting approval from HHS.

State profiles include links and updates to all structures from State-Run to Federally-Facilitated Marketplaces and examples of implementation steps.

This report in table format is a supplement to NCSL’s online report, State Actions to Address Health Insurance Exchanges, (includes 50-state map) at [www.ncsl.org/default.aspx?Tabid=21388](http://www.ncsl.org/default.aspx?Tabid=21388)

### 2015 Open enrollment
for all 50 states and D.C. began Nov. 15, 2014 for three months, ending Feb. 15.

- **NEW** A special extension period ran from March 15, 2015 through Apr. 30 for anyone who was not fully aware of the penalties for not obtaining health coverage for 2015. See details of consumer plan choices and a new preview "see plans" feature on Healthcare.gov for viewing premium prices, subsidies and choices without making a binding selection.

- **Individual consumers** can obtain information and enroll online at: [www.healthcare.gov](http://www.healthcare.gov) (limited open enrollment extended to Apr. 30, 2015)

- **Small employers** can obtain information and enroll online at [https://www.healthcare.gov/see-plans/small-business/](https://www.healthcare.gov/see-plans/small-business/)

### DEFINITIONS AND ABBREVIATIONS

**ACA** = The federal Patient Protection and Affordable Care Act (PPACA), also termed the Affordable Care Act and sometimes referred to as “Obamacare.”

**APTC** = Advance Premium Tax Credit. The premium tax credit is money that the federal government pays directly to an insurance company every month so that enrollees have lower monthly premiums. Each tax credit is based on the income the people in each tax household expect to have during the year.

**BCBS** = BlueCross/ Blue Shield, a commercial insurer network

**CMS** = The Centers for Medicare and Medicaid Services, the umbrella federal agency within HHS responsible for oversight and implementation of Marketplaces, insurance reforms and Medicaid changes included in the ACA.

**Exchange or Marketplace** = The term “Exchange” is defined and used in the federal ACA statute. “Marketplace” is intended and defined in federal regulations to have an identical meaning. The words are used interchangeably in many documents, articles and reports.

**HHS** = U.S. Department of Health and Human Services.

**MSP** = Multi-State Plan(s). MSPs are offered through Health Marketplaces/Exchanges alongside state-specific health insurer policies.

**QHP** = Qualified Health Plan, a health insurance product that meets the requirements of the ACA.

**SHOP** = Small Business Health Options Program, with insurance available to employers with up to 50 FTEs. See SHOP explanation at [HealthCare.gov](http://HealthCare.gov).

* Individual state information will be added on a regular basis, with date notations where applicable.
### Exchange Information by State

<table>
<thead>
<tr>
<th>Alabama</th>
<th><strong>Federally Facilitated Marketplace in Alabama</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>On Nov. 13, 2012, Governor Robert Bentley announced that the state will not pursue a state exchange. Governor Bentley created Executive Order 17 on June 2, 2011 to establish the Alabama Health Insurance Exchange Study Commission. The Commission is to study the establishment of the Alabama Health Benefits Exchange and make recommendations to the Governor and Legislature by Dec. 1, 2011. These recommendations were to include the form, governance, resource allocation, function and potential effects of the Exchange. Legislation in the 2012 Session considered these recommendations with regards an Alabama Exchange, but were not passed.³</td>

### Delaware

**Choose Health Delaware (State-Federal Partnership Exchange)**

Governor Jack Markell submitted a letter to the U.S. Department of Health and Human Services on November 14, 2012, indicating that the state will pursue a state/federal partnership in regards to exchange establishment in the state. Delaware will run the plan management and consumer assistance functions of the federally facilitated exchange.

On December 20, 2012, Delaware received conditional approval from the U.S. Department of Health and Human Services (HHS) to establish a Partnership Marketplace. The Choose Health Delaware Marketplace portal became operational on October 1; consumers may download a paper application from the website but cannot apply for Marketplace or Medicaid coverage directly through Delaware’s site. The federal government is operating the online eligibility and enrollment system and consumers must use the federal portal to apply for coverage online.

The Delaware Health Care Commission within the Delaware Health and Human Services serves as the planning group for the state on Health Insurance Exchanges.

Implementation Facts, Notes and News
- Allowing Renewals in 2014 w/o Compliance⁷ – Statement
- 2014 ACA Insurance Reforms in State Law = No⁸
- State has authorized employee choice of insurers in SHOP for 2015.

Florida Health Choices was created in response to a vastly changing health care environment to help individuals and small business owners in Florida make sense of the complex health insurance system.

Our Insurance Marketplace provides easy access to affordable insurance and service options, acting as a "one-stop-shop" for flexible options and products. You can compare multiple products side by side, enroll in the option that best fits your needs, and access important information.

If you are not sure where to shop, we can help with that too. This is just one way we are working to advance the health and well-being of Floridians by providing information and access to available options.

**Georgia**

**Federally Facilitated Marketplace in Georgia**

2014 Action: HB 943 signed 4/15/2014 prohibited the establishment of a state-run or partnership Health Exchange, or the receipt or use of any funds to support an exchange, or the use of any further state role in a navigator health enrollment program operated by the University of Georgia. HB 943 and HB 990 also prohibit the expansion of the Georgia Medicaid program in relation to the ACA.

On Nov. 16, 2012, Governor Nathan Deal notified U.S. Secretary of Health and Human Services Kathleen Sebelius in a letter that Georgia will not set up a state-based health insurance exchange. This means that the state defaulted to a federally-facilitated exchange.

2011 Action: Governor Nathan Deal created an Executive Order on June 2, 2011 to establish the Georgia Health Insurance Exchange Advisory Committee. The Committee reported final recommendations Dec., 2011. The Executive Order emphasized a desire to “develop an exchange that reflects a free market, conservative approach to expanding health insurance coverage in Georgia”. The Committee was composed of legislators, the Commissioner of Insurance, the Commissioner of the Department of Community Health, the Chief Operating Officer of the Department of Economic Development, and others.

<td>Idaho</td>
<td>A state-run health insurance exchange for Idaho was authorized in March 2013 when the legislature passed HB 248. The governor declared the state’s intention to run an exchange in December 2012, and the governor and legislative leadership appointed 19 governing board members. In order to meet the exchange enrollment deadline in October 2013, the governing board in Idaho requested that the federal government support certain services, such as determining enrollment eligibility, in the state exchange initially. Although the federal government will be supporting most services in the Idaho exchange in 2014 plan year, Exchange board members Senator Jim Rice (R) and House Minority Leader John Rusche (D) did not expect the federal government to support the state beyond the initial open enrollment period. The state is using the federal system for eligibility determination, The state is also working on a transitional plan with the eventual goal of eliminating federal support of the state exchange’s operations.</td>

[updated 3/6/2014]
## Illinois

**Illinois Partnership Marketplace**

*State-Federal partnership for 2014-2015*

*Plans for State-Run Exchange, online via healthcare.gov*

On Oct. 16, 2012, Illinois announced that it will work with the federal government to run the exchange in the state. The state intends to transition to a fully state operated exchange within a year of partnership operation.

In 2011, **SB 1555 Public Act 97-0142** intended to establish a state based health insurance exchange. The act created an **Illinois Health Benefits Exchange Legislative Study Committee** to inquire further into the establishment of the Illinois Health Benefits Exchange.

In October 2011, the Legislative Study Committee provided a report titled, **Findings of the Illinois Legislative Health Insurance Exchange Study Committee**.

According to the state's health reform website, "Additional legislation to establish governance and financing structure of the Exchange in Illinois is currently being assessed in the Illinois General Assembly."

<td>Iowa</td>
<td>Iowa Governor Terry Branstad announced in December 2012 that the state would run the plan management piece of the exchange in the state. Iowa is among the seven states that are partnering with the federal government; however, it was the only state that has decided to run only the plan management function and not the other optional consumer assistance function for partnership states. In a previous November 2012 letter to U.S. Secretary of Health and Human Services Kathleen Sebelius, Governor Branstad said that the state will continue to pursue a state-based exchange, despite some questions and concerns about the exchanges. The governor mentioned in the letter that the state may have to default “to some level of a federally-facilitated” exchange if more guidance and additional details are not provided from the federal government. The Department of Health established an Interagency Planning Workgroup to collaborate between the Iowa Department of Public Health, Iowa Department of Human Services (State Medicaid Agency), Iowa Insurance Division, and the Iowa Department of Revenue. The Department will create final recommendations to include: organizational structure for the exchange, implementation plan including policy recommendations and core capabilities, sustainability plan, comprehensive plan for implementation, expansion of stakeholder input, and coordinate planning efforts with existing state and federal programs. They will also assess needed resources and regulations.</td>

Update 11/15/2014
### Kentucky

**Kynect (State-Run Exchange)**

Kentucky Governor Steve Beshear issued an Executive Order establishing the Office of the Kentucky Health Benefit Exchange, which will oversee the implementation and operations of the Exchange. The office will be housed in the Cabinet for Health and Family Services. The governor made his intentions to establish an exchange clear in early May, when he stated that if the court upheld the Patient Protection and Affordable Care Act, he preferred to take the advice of many stakeholders and create an exchange run by the state. The exchange in the state will limit the number of plans that insurers can offer.

#### Exchange Information by State

**Premium Information**

### Massachusetts

**Health Connector (State-Run Exchange, 2014-2015)**

- State-run Exchange established by law: [Chapter 58 of the Acts of 2006](#).
- In May, 2014, the Connector board and the governor announced a dual-track total website replacement, using a new commercial contract design, while also preparing to use healthcare.gov as a fall-back for 2015.
- In 2006, Massachusetts passed health reform legislation that established a state initiated exchange.
  - The "Health Connector," launched in 2007, serves multiple functions and managed two health insurance programs: Commonwealth Care, a subsidized program for adults who do not have employer-sponsored insurance and Commonwealth Choice offering commercial insurance plans for individuals ineligible for care as well as small business employers. It uses an "active purchaser" approach to carrier selection.¹
  - Annual Reports are provided to the Legislature. [Reports to Legislature Archive](#) are available online through the Massachusetts DHHS.
  - A $25 million appropriation from the state general fund helped start the exchange. State funds are appropriated annually.

#### Implementation Facts, Notes and News

- As of 4/1/2014 the state has expanded, continuing "special enrollment periods" for residents applying for subsidized coverage up to 300% of federal poverty.
- Not Allowing Renewals in 2014 w/o Compliance² - [Ins. Dept. Letter](#).
- New Mass. health website estimate to cost $121 million, 5/8/2014
- Gov. Patrick announces remedial actions for website, 2/6/2014
- Health Care Site Official requested 6-month extension to continue subsidized care program and stop-gap coverage – 2/12/2014

<td><strong>Minnesota</strong>&lt;br&gt;&lt;br&gt;<strong>MNSure</strong>&lt;br&gt;(State-Run Exchange)</td>
<td>State-run Exchange established by law: In 2013, the Minnesota legislature passed the Minnesota Insurance Marketplace Act authorizing the state’s work-in-progress health insurance exchange. The administration began work on the exchange in September 2011 by establishing the Health Insurance Exchange Advisory Task Force to provide recommendations on the development and operation of a state-based health insurance exchange. The exchange was branded “MNSure” by the state administration. The law requires the governor, with guidance from policymakers, to appoint governing board members. All qualified health insurers can participate in the exchange in 2014, but the board may set certification standards for insurers starting Jan. 1, 2015. The law also includes details on funding, including that the exchange collected a fee of 1.5 percent of total premiums in 2014 to support the operational expenses. The fee will increase to 3.5 percent of total premiums beginning in 2015. Annual reports to the legislature starting in 2015 are also mandated by the law. In 2011, the Department of Commerce announced the establishment of the Health Insurance Exchange Advisory Task Force to advise on the development and operation of a state-based health insurance exchange.</td>
<td>2015 Rate analysis (NORC survey) 2014 Premium Rates for MNSure. 2014 Enrollment Profile 4/19/14 Minnesota</td>
<td>The 2013 Legislature (included in HB 5, the Minnesota Insurance Marketplace Act) has designated the Minnesota Community Application Agent Program as the navigator program for the first year of MNSure. Final rules regarding the navigator role within MNSure’s Consumer Assistance Network, are posted on the MNSure website. The MNCAA Program, established by the 2007 Minnesota Legislature, seeks to break down barriers to obtaining publicly funded health care coverage for eligible Minnesotans. Community organizations partnering DHS and counties to help people enroll in Minnesota Health Care Programs (MHCP). The In-Person Assisters must pass an exam and background check. - **Federally Facilitated Marketplace in Mississippi**
- **State Run SHOP-only Exchange: SHOP: One, Mississippi, opened July 1, 2014**

  In August 2013, HHS approved a structure variation that allows a state to run a SHOP exchange only. Comm. Cheney’s revised SHOP-only proposal was given conditional approval by HHS on Oct. 1, with a start date goal of Jan. 1, 2014, but postponed. The “One, Mississippi” SHOP website is live, and includes Employer FAQs (PDF) [added 1/6/2014]

  Earlier, Mississippi announced that its high-risk pool program, the Mississippi Comprehensive Health Insurance Risk Pool Association, will establish the state’s health insurance exchange. The independent, not-for-profit association was created in 1991 to operate the state’s high-risk pool. In May 2011 it agreed to do so.

  In 2011, HB 377 extended the operation and reporting deadlines of the Health Insurance Exchange Study Committee, created by law in 2010, allowing continuation until July 1, 2014. The panel was to examine issues related to exchanges including the effects on insurance carriers, populations needing coverage, its ability to reduce the number of uninsured, projected costs, and models from other states.

| **New Mexico**               | In New Mexico, the health insurance exchange’s governing board requested federal support to implement the new marketplace. New Mexico announced its board members in April, after authorizing a state-run exchange in March. In New Mexico, the exchange’s governing board voted to have the state manage the small business (SHOP) market, but have the federal government run the individual insurance portion of the exchange (a recent option the federal government has offered to states). The governing board postponed the launch of a full state-run exchange from October 2014, to October of 2015. Despite earlier objections to a state-run health insurance exchange, Governor Susana Martinez’s administration has moved ahead with exchange planning in the state, using federal funds to contract with vendors and consultants.. In 2011, New Mexico’s legislature passed a bill that was vetoed by the governor. | Click here for an insurance premium chart for 2014. **2014 Enrollment Profile 4/19/14 New Mexico** | The exchange will provide certification. Navigators are required to complete training and a background check. | $123,281,600 total federal grants related to exchanges awarded to the state.

**New York**
*New York State of Health (State-Run Exchange)* | Governor Andrew Cuomo established the New York Health Benefit Exchange through an Executive Order 42 on April 12, 2012. The executive order requires the exchange to be financially self-sustaining by 2015, and take advantage of all federal funds through 2014. The governor’s order did not set up a formal governing board. Instead it allows for stakeholder and public comment with regional advisory committees of consumer advocates, small business representatives, health care providers, agents, brokers, insurers, labor organizations and others. These groups will advise the Department of Health and make recommendations on the establishment and operation of the exchange. The Department of Health will house the exchange. | Click here to view approved monthly rates.

<td>North Dakota</td>
<td>The governor has stated in various media outlets that the state will have a federally-facilitated exchange for now. In 2011, the legislature passed HB 112 which requires the exchange to be further examined to determine its establishment no later than Jan. 1, 2013 and operational by Jan. 1, 2014. North Dakota’s Insurance Commissioner and the department of human services may adopt rules necessary or desirable to carry out the provisions necessary to establish a health insurance exchange that are stipulated in the law. The commissioner and department of human services were required to provide an update to legislative management about their progress before Oct. 15, 2012. A special legislative session was to consider their recommendations and to take further steps to implement the health benefits exchange. North Dakota introduced HB 1474a during the 2011 Special Session that would establish a state exchange. The special session begin the week of Nov. 7, 2011. The bill did not pass the House during the special session which adjourned on Nov. 10, 2011.</td>

| South Carolina               | In July 2012, Governor Nikki Haley issued a letter stating that South Carolina will not create a state exchange or accept establishment grants from the federal government. The letter stated that the decision is based on a study done by the state researching exchanges. In 2011, Governor Nikki Haley established the South Carolina Health Exchange Planning Committee through Executive Order 2011-09. The Committee was an advisory group whose mission is to assist with research as determined necessary by the Director of Insurance and to provide recommendations on the health insurance exchange planning process as described in the Exchange Planning Grant application. If the committee recommends a state-based exchange, it must include detailed recommendations regarding the structure, governance, etc. of the exchange.²,³ | 2015 premiums, Healthcare.gov | Navigators in the state must meet CMS training requirements (30 hours of training and web certification). ### South Dakota

**Federally Facilitated Marketplace in South Dakota**

In September 2012, Governor Dennis Daugaard announced that the state will not develop a state exchange.

Prior to this decision, Governor Daugaard elected to develop a large taskforce similar to prior stakeholder groups assembled in South Dakota to address both coverage for the insured and the development of recommendations for the state’s long term care delivery system. This task force had several subgroups to focus on areas such as operations and financing an exchange, outreach and communication, and insurance plan and market organization. Lt. Governor Matt Michels served as chairman of the group.

Representation was sought and received from small businesses, insurance agents, insurance companies, health care providers, consumer advocates, state agencies, and state legislators.

### Exchange Information by State

#### Tennessee

**Federally Facilitated Marketplace in Tennessee**

The state defaulted to a federally run exchange. Tennessee’s Benefits Administration and the Department of Finance had the lead on planning for the health insurance exchange in the state. The Department identified subcontractors to work with through March 31, 2013 to analyze various aspects of a state-based health insurance exchange.

Additionally, the Benefits Administration and the Department of Finance established the [Tennessee Planning Initiative for the PPACA Health Insurance Exchange](http://www.tn.gov/health/planning-initiative.html). The goals of the Initiative are to identify key decision points, research policy alternatives and make recommendations on health care. The Initiative is working with a variety of stakeholders and has convened two [Technical Assistance Groups (TAGs)](http://www.tn.gov/health/planning-initiative.html) to determine whether the state should operate an insurance exchange, and, if so, how it should be structured. Members of the Agent/Broker TAG and Actuary/Underwriter TAG will provide expertise and contribute to the analysis and the planning process.

#### Implementation Facts, Notes and News

- **Allowing Renewals in 2014 w/o Compliance = Yes**
- **2014 ACA Insurance Reforms in State Law = No**
- State has permitted [employee choice of insurers](http://www.tn.gov/health/planning-initiative.html) in SHOP for 2015

### State Decisions/ Structure/ Background

- The state defaulted to a federally run exchange.
- Tennessee’s Benefits Administration and the Department of Finance had the lead on planning for the health insurance exchange in the state.
- The Department identified subcontractors to work with through March 31, 2013 to analyze various aspects of a state-based health insurance exchange.

### Premium Information

- 2015 premiums, [Healthcare.gov](http://www.healthcare.gov)

### Addressed Navigator/ Assister

- Navigators in the state must meet CMS training requirements (30 hours of training and web certification).
- [Click here](http://www.hhs.gov) to view final navigator rule.
- Two organizations in the state received navigator grant funds from HHS.

In addition, the legislature enacted [SB 1145](http://www.tn.gov/health/planning-initiative.html) states that the commissioner must establish certification, training and rules for navigators.

### Total Federal Funding (2010-2014)

- $9,110,165 total [federal grants](http://www.tn.gov/health/planning-initiative.html) related to exchanges awarded to the state.
- $1,000,000 Planning Grant
- $1,560,220 1st Level One Establishment Grant
- $2,249,945 2nd Level One Establishment Grant
- $4,300,000 3rd Level One Establishment Grant

| Utah Avenida H - www.avenueh.com (State-Run SHOP Exchange) | HB 133 of 2008 and HB 188 of 2009, established a small business exchange, prior to enactment of the ACA. **State Proposal Letter regarding SHOP exchange**  
- Utah continues to run its small business exchange, which has been in place since 2008, while the federal government runs the individual exchange in the state. CMS proposed an amendment to its Exchange Final Rule (45 CFR 155) that permits Utah to operate a state-based SHOP-only marketplace starting in 2014, building on the framework of Utah’s existing small business exchange, while the federal government operates the federally facilitated marketplace for the individual market for 2014-15.  
- Selection of carriers: The small business portion operates a "defined contribution market" where an employer offers a pre-determined level of funding and allows the employee to purchase their coverage using the funds the employer provided.  
- Utah has modified the exchange system and expanded its internet portal to meet federal requirements for premium tax subsidies and credits and Medicaid and CHIP eligibility. | **2015 Individual Rates** (FFM) as of 10/15/2014

## West Virginia

**Federally Facilitated Marketplace in West Virginia**

Although West Virginia passed HB 408, Act No. 100 to create a state exchange in 2011 it was not implemented due to financial concerns of establishing a state exchange. As a result, the state did not pursue a state exchange by the Dec. 14, 2012 deadline. The governor announced that the state will likely pursue a state/federal partnership. If the state decides to continue the pursuit of a partner exchange with the federal government it must submit a blueprint (state plan) for approval from HHS.

| Wisconsin  
Federally Facilitated Marketplace in Wisconsin | In reaction to the Supreme Court ruling, Governor Scott Walker issued a statement declaring that he will not implement any part of the federal health law. On January 18, 2012 Governor Scott Walker announced he would return $37.6 million in Early Innovator Grant program funding to the federal government. In 2011, Governor Walker established the Office of Free Market Health Care which is to be directed by the Department of Health Services and the Office of the Commissioner of Insurance to develop and recommend a plan that encourages competition through the leveraging of a free-market approach based on a set of requirements outlined in the executive order. | 2015 premiums, Healthcare.gov

State Structures for Health Insurance Marketplaces/Exchanges

(This is a reprint of the NCSL interactive state map, online at http://www.ncsl.org/default.aspx?tabid=21388 Updated for April 2015

New Mexico has both a federally-assisted individual market site and an state-run SHOP exchange.

Page 56
Notes for "Health Insurance Exchanges or Marketplaces: State Actions" 50-state table

1 Declaration refers to the decision the state made regarding the development of a state based health insurance exchange. This section provides links to the declaration letter and the approval or conditional approval from HHS. Resource: The Center for Consumer Information and Insurance Oversight, HHS, Oct. 30, 2013.

2 Structure within states refers to where the exchange will be housed in the state. HHS provides an official tally of the 19 “Conditionally-Approved State Exchanges” (includes D.C.) and the seven additional “Conditionally Approved State Partnership Marketplaces:” State Health Insurance Marketplaces (List of Conditionally Approved Exchanges). (CCIIO/HHS, as of October 2013)

3 Governance refers to the governing board outlined in the state law or regulation.

4 Selection of Carriers describes another option for how a state operates an exchange. States have options to operate their exchange from an “active purchaser” model in which the exchange operates as large employers often do, using market leverage and the tools of managed competition to negotiate product offerings with the exchange. The popular alternative is the “open marketplace” in which the exchange operates as a clearinghouse that is open to all qualified insurers and relies on market forces to generate product offerings as is the case in CO and UT. For these states, this means that any insurer that meets the Qualified Health Plans (QHP) standard can participate in the exchange. On the other hand, a state governing board can participate in selective contracting and pick and choose which insurers are allowed to participate; this is the model used in California, Connecticut and Massachusetts in 2014-15.

5 Implementation Facts, Notes and News – This information describes the actual Marketplace operation for each state, beginning Oct.1, 2013. Statistics include material provided by both state and federal agencies. Dates vary among individual states.

6 Federal Grants are a part of the Affordable Care Act and are available to states to plan and implement exchanges. Some state figures may not total due to funds returned or not appropriated. State exchanges must be self-sufficient by January 2015. View 50 state grant map & descriptions online, accessed 11/9/2014.

7 Allowing Renewals in 2014 w/o Compliance with the ACA Essential Health Benefits, and minimum coverage standards, during 2014 only. Federal guidance allowed relaxing this requirement in December 2013, but state insurance laws can require full compliance as of Jan. 1, 2014.

8 2014 ACA Insurance Reforms in State Law. YES means state insurance laws are determined to generally include enforcement of ACA health insurance market reforms, per NAIC survey published 12/4/2013
SUPPLEMENTAL INFORMATION – State Marketplace Resources

- The Affordable Care Act authorized State Planning and Establishment Grants to help states establish Health Insurance Marketplaces, or Exchanges. This funding gives states the resources to conduct the research and planning needed to build a health insurance marketplace and determine how their marketplace will be operated and governed.

  Closing Dates - States had multiple opportunities to apply for funding in 2014; the final day for submission was Friday, November 14, 2014

    o Level One Exchange Establishment Application Due Dates: 2/14/2014; 5/15/2014; 8/15/2014; 10/15/2014; 11/14/2014
    o Level Two Exchange Establishment Application Due Dates: 2/14/2014; 5/15/2014; 8/15/2014; 10/15/2014; 11/14/2014
