ANNOUNCEMENTS

- Grant opportunities - Commission Members
- Announcements - Commission Members
- Other Workgroup Updates - Commission Members
- SIM HIT Updates - Carrie Paykoc
- OeHI Updates - Chris Underwood
Goal: The goal of Colorado SIM is to improve the health of Coloradans by providing access to integrated physical and behavioral health care services in coordinated community systems, with value-based payment structures, for 80 percent of Colorado residents by 2019.

State HIT Goal: Promote secure and efficient use of technology across health and non-health sectors to advance integration and improve health
USE CASE DEVELOPMENT

- **Use Case Interviews June 2016**
  - Round 1: QMRT+ User interviews-Completed
  - Round 2: QMRT+ Technical interviews-Completed

- **Use Case Selection Part 1**
  - ONC Hosted Retreat- June 27th to select top 2-3 high-level use cases
  - ONC Hosted Payer Retreat- June 28th review selected use cases

- **Use Case Selection Part 2**
  - Feasibility Analysis completed on selected uses cases prior to 2nd retreat
  - ONC Hosted Retreat- July 21st to select 1-2 use cases, post feasibility
WHAT ARE WE TRYING TO ACHIEVE TODAY?

▪ Agreement and understanding of Steering Committee roles and responsibilities for Colorado Health IT Roadmap
  ▪ *The State of Health: Colorado’s Commitment to Become the Healthiest State*

▪ Steering Committee understands, and is comfortable with, the Colorado Health IT Roadmap project process
  ▪ Interactive discussion with Mosaica Partners
  ▪ Address any concerns raised by the Commission

▪ Create a Parking Lot for ideas or questions
COLORADO HEALTH IT ROADMAP

PROJECT TEAM: WORKER BEES

Colorado Team

• Chris Underwood – Exec. Sponsor
• Carrie Paykoc
• Micah Jones
• Veronica Menard
• Alejandro Vera
• Saundra Beaird
• State Health IT Workgroup (as needed)

Mosaica Partners Team

• Laura Kolkman – Engagement Lead
• Bob Brown
• Fran Rubino
• Network associates (as needed)
COLORADO AS THE HEALTHIEST STATE

“The GOAL is for Colorado to become the healthiest state in the nation.”

“Our VISION is a future where health and well-being are as much a part of Colorado’s way of life as our mountains, clear skies, and pristine environment.”
“Our health delivery networks will be comprehensive, person-centered, high-quality, and affordable.”

“They will integrate physical, behavioral, oral, and environmental health with community-based long-term services and supports, and support individual health with health information technology.”
OFFICE OF EHEALTH INNOVATION SHALL:

- Promote and advance the secure, efficient, and effective use of health information, and
- Help to inform, incentivize, and influence future Health IT initiatives.
- Evaluate the state’s Health IT needs and facilitate the use of public funds to enable all Coloradans to benefit from Health IT and health information exchange efforts.
- Coordinate relevant public and private stakeholders and Health IT programs across state agencies and between state and federal projects.
- Evaluate functions to advance Health IT systems in Colorado and create transparency and accountability.
- The office will define the minimum criteria for qualified organizations that will provide state-level, common technical services supporting advanced health information interoperability.
- The Director in consultation with eHealth Commission, shall advise and recommend policy and regulatory changes that will accelerate Health IT innovation in Colorado.
The eHealth Commission was created to provide advice and guidance to the Office of eHealth Innovation on advancing Health IT in Colorado.

The commission shall support the implementation of the state’s Health IT strategy and interoperability objectives by:

- Setting goals for Health IT programs and
- Creating a process for developing common policies and technical solution.
COLORADO HEALTH IT ROADMAP

WHY A ROADMAP?
WHY A STATE HEALTH IT ROADMAP?

- Purpose of the OeHI and the eHealth Commission is to strategically align the Health IT projects and initiatives throughout the state.
- Multiple Health IT efforts are underway in Colorado:
  - Focus will identify and reduce redundancy of efforts.
  - Provide opportunity to utilize resources more efficiently and effectively.
- To support innovation, OeHI and the eHealth Commission need to have a solid understanding of:
  - Current efforts - including overlaps and gaps.
  - Unmet needs and opportunities.
  - Unified vision of the desired future state.
COLORADO’S HEALTH IT ROADMAP

- Supports the Governor’s State of Health Initiative
  - Best Care, Best Health, Best Value

- Statewide Health IT Roadmap for next 3-5 years
  - Considers both State and statewide requirements, plans, and projects
  - Living plan that will be used and regularly updated

- Comprehensive high level plan that will provide direction for Health IT investments in the public and private sectors

- Will deliver high level actionable initiatives

- Can be used as a sounding board for determining the fit of existing Health IT projects and as a springboard for identifying and evaluating new opportunities

- The process is as important as the goal of the project

Successful health care reform
- Best Care, Best Health, Best Value -
  Is dependent upon the efficient and effective use of health information technology
COLORADO HEALTH IT ROADMAP

STEERING COMMITTEE ROLES AND RESPONSIBILITIES
Purpose

Provide advice and counsel to help steer the Colorado Health IT Roadmap project to success
Roles & Responsibilities

- Provide insight and guidance into shaping Colorado’s future HIT/HIE environment
- Bring your perspectives to the project
- Ensure that key challenges and issues are addressed
- Identify opportunities that should be considered
- Identify concerns that should be addressed

- Offer guidance to ensure the results provide a solid statewide Health IT/HIE Roadmap
- Review the final draft of the Roadmap for completeness and reasonableness
- Publicly support the project
- Leave personal/organizational agendas at the door
COLORADO HEALTH IT ROADMAP CONTENTS

- Executive Summary
- Introduction
- Background
- How the Roadmap Was Created
- Recommended Initiatives - in 5 Domains
  - Stakeholder Engagement & Participation
  - Governance
  - Business and Finance
  - Privacy & Security
  - Technology
- Timeline
- Funding Approach
- Transition Plan and Next Steps
- Appendices
Colorado is using a structured and proven process to update the Colorado Health IT Roadmap.

The process involves clearly defining objectives, capabilities, enablers, and initiatives for improving Health IT and HIE in Colorado.
Because, understanding what things need to be developed, implemented, improved, continued, or discontinued provides the foundation for designing reasonable and actionable initiatives.

The initiatives will ensure that Colorado identifies – and has in place – the infrastructure elements required to accomplish its HIT/HIE objectives.
THE FOUNDATION FOR INITIATIVES

THE INITIATIVES IN THE ROADMAP WILL SUPPORT COLORADO’S AGREED UPON HEALTH IT OBJECTIVES

Using this structured and proven process, it’s possible to link an initiative back to the individual objective(s) that it supports.

- **Initiatives** can be linked back to the **enablers** that need to be developed, implemented, improved, continued, or discontinued.

- **Enablers** can be linked back to the specific **capabilities** that must be present in the environment or infrastructure.

- **Capabilities** can be linked back to the prioritized community-defined **objectives**.
THE FOUNDATION FOR INITIATIVES

THE INITIATIVES IN THE ROADMAP WILL SUPPORT COLORADO’S AGREED UPON HEALTH IT OBJECTIVES

Using this process, the linkage between initiatives and objectives can be clearly understood.
What are your expectations for the project?

What are your concerns?
